PROFESSIONAL PROFILE

Solution Architect and Technical Lead with 13+ years on Microsoft Dynamics, including nine years delivering for Irish and international organisations and four years onsite in Ireland. Combines design authority with hands-on engineering across Dataverse, Power Pages, Azure integration and Copilot Studio. Delivers secure, auditable platforms and governed releases for public-sector, healthcare and financial-services programmes.

Remote B2B contractor through Codepolis IT Solutions LLP.
Open to contract and fractional architect roles.

EXPERIENCE & SELECTED WORK

Codec Ireland

Jul 2021 - Present

Lead Dynamics 365 CE Developer / Technical Lead

Remote from India · Irish public-sector programmes

Lead solution architecture and hands-on engineering; own technical direction, design/code reviews, developer guidance and release readiness across distributed Agile teams.

> SIGNATURE PROJECT · COPILOT STUDIO
>
> **Case Assistant** / A regulatory body
>
> - Designed and delivered a Copilot Studio agent for Dynamics 365 Customer Service, published to Microsoft Teams. Four guided topics find and summarise cases, retrieve documents, suggest next steps and create cases.
> - Grounded responses in Dataverse records and knowledge articles under the signed-in user's permissions. Built user-context case creation with Power Automate and Completed/Failed action audit records.
> - Packaged the agent, flow and tables in a source-controlled Dataverse solution with an ALM runbook and end-to-end test plan; configured in-app Copilot summaries, email drafts and knowledge-grounded answers.

Regulatory case management / A regulatory body

- Architected an organisation-wide Customer Service / Dataverse platform across two phases. Co-authored the Solution Design and led three junior developers across the complete case lifecycle.
- Built secure Power Pages evidence submission with Azure Functions, Custom APIs/plugins and SharePoint; delivered cross-environment synchronisation, PCF controls and an offline-first inspection PWA with recoverable processing.
- Strengthened privacy through DSAR anonymisation and least-privilege security; governed Azure DevOps releases using managed solutions and environment-specific configuration.

National healthcare recruitment

An Irish national healthcare organisation

- Led technical direction for a regional operating model across a platform serving approximately 3,000 users, coordinating D365, Power Pages, SharePoint and 100+ Power Automate flows.
- Designed business units, owner teams, roles and record ownership; shaped governed approver/submitter data and portal routing while preserving controlled access to legacy records.

EARLIER EXPERIENCE

Central Bank of Ireland
Apr 2019 - Apr 2021

Senior Dynamics 365 CE Developer · Dublin, Ireland

- Designed and developed plugins, workflows and JavaScript in a highly regulated enterprise environment; documented application architecture and delivered KingswaySoft data migration.
- Supported quality-focused Agile delivery with business, architecture, testing and engineering stakeholders.

OpenSky Data Systems
Feb 2017 - Apr 2019

Dynamics CRM Developer · Naas, Ireland

- Built CRM integrations with ESRI mapping, SharePoint, server-side email, Azure Functions, Logic Apps and Power Automate.
- Automated Azure DevOps deployments and delivered customer-facing experiences with The Portal Connector and Dynamics portals.

FLSmidth
Jan 2016 - Dec 2016

MS CRM Consultant · Chennai, India

Delivered Dynamics CRM for international stakeholders and super-user training onsite in Denmark.

GSR Business Services
Sep 2013 - Jan 2016

MS CRM Developer · Chennai, India

Developed plugins, workflows, JavaScript, FetchXML and SSRS across Dynamics CRM 2011, 2013, 2015 and 2016.
